# EnergyOne<sup>®</sup> Batteries

The ultimate in battery technology for  
truck and trailer refrigeration units

 **Ingersoll Rand**

# EnergyOne® Batteries

---

For your business to excel, your refrigerated fleet has to be totally dependable.

No matter what the weather, you need a battery that will start up your units day in, day out. The alternative is downtime, repair cost and missed deadlines.

Seasonal use, stop/start operation and temperature extremes can stress a battery to the point where it fails to do its job. Our EnergyOne® range offers the perfect solution for both conventional and CryoTech applications.

## EnergyOne® Gold

Traditional flooded battery with high cold cranking amps (CCA) and the energy capacity to ensure a long service life.

# EnergyOne® Platinum

Absorbed Glass Mat (AGM) technology as used in high-end products for improved performance and longer service life.

AT LEAST  
2X FASTER  
CHARGE

REDUCED  
DOWNTIME  
AND TCO

UP TO  
4X LONGER  
SERVICE LIFE

OPERATING  
TEMPERATURE  
RANGE -40 TO 80°C

4X LONGER  
SHELF LIFE

100%  
MAINTENANCE  
FREE

TOUGH  
CONSTRUCTION  
AND SUPERIOR  
VIBRATION  
RESISTANCE

3<sup>RD</sup> YEAR  
WARRANTY  
EXTENSION WHEN  
COMBINED WITH  
THERMOLITE™  
SOLAR PANELS

## EnergyOne® Cryo

Same technology as EnergyOne® Platinum combined with higher capacity to meet the power requirements of a cryogenic application.

## EnergyOne® Battery Choice

	EnergyOne® Gold	EnergyOne® Platinum	EnergyOne® Cryo
Voltage	12	12	12
Battery Type	Flooded	AGM	AGM
Cold Cranking Amps (CCA)	760	880	1150
Reserve Capacity	175 min.	135 min.	210 min.
C20 Capacity (Amp hours)	92 Ah	68 Ah	100 Ah
Warranty	2 years	2 years	2 years
Weight	21.3 kg	22.0 kg	36.2 kg
Shelf Life	6 months	2 years	2 years
Service Part Number	2030765	2030777	2030798

Genuine Parts

## Did you know?

Approximately 15% of breakdowns on transport refrigeration systems are caused by battery failures. Thermo King has solutions to preserve and enhance your battery.

Keeping your refrigeration unit idle for a long time causes the battery to drain beyond a point that can be recharged. To preserve your battery, we recommend using LVD (Low Voltage Disconnect).

For applications that demand high external power, we recommend using ThermoLite™

Solar Panel which helps extend the lifetime of the battery and provide additional fuel savings.

Contact your Thermo King dealer if you are interested to learn more about these products.
